Save Steps, Save Money
BarTender® Mobile App

Print the exact right label, at the exact right time, to any connected printer

GET IT ON
Google Play

The BarTender® Mobile App works with BarTender 2022

Building on the power of BarTender® — the most used software to design, manage and print labels, barcodes, documents and RFID tags — the BarTender Mobile App offers enhanced mobility and accessibility. It puts label printing directly into the hands of the people who use the labels to positively impact your business — whether it's in production, warehousing, a retail store, or in the field.
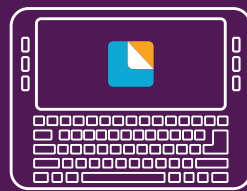

Install the BarTender Mobile App on any Android device used by your mobile workforce.

Handheld computers	Wearable computers	Vehicle mount computers	Tablets

The BarTender Mobile App runs on any mobile devices from major manufacturers with Android 11.0 or later and supports printing to industry-leading printers.

Print labels anywhere, anytime, wherever you need them

Companies trust BarTender to improve worker productivity, meet regulatory compliance, and reduce costs associated with poor labeling practices. Now with the BarTender Mobile App, they can enjoy easy, fast and secure mobile printing of documents, barcode labels and RFID tags at their source of work.

Warehouse and Logistics

Field Service

Retail

The BarTender Mobile App is validated for the mobile Android devices your teams use every day — it's easy to use and works with the features and apps already installed.

Print at the source of work

▸ Reduce unnecessary steps — which add up to large costs over time — and increase label accuracy by providing your operators with forms and predefined data entry options.

Automatically discover (and connect to) any printer

▸ Connect to any Bluetooth or IP-connected network printer and start printing immediately — without time-consuming manual configuration.

Maintain mission-critical security

▸ Layers of security to keep your system locked down and safe with user and group authentication.*

Centralized label template management

▸ Give your users consistent access to the most up-to-date template versions*, ensuring accuracy, reducing label waste and saving recall-associated costs.

Simplify your printing workflow

▸ Print directly to your existing network printers, utilize driverless printing, or print to PDF. Our turnkey options can meet all your printing needs.

*Included in the Enterprise Edition.
