

Modem Cradles

for Symbol® Mobile Computers

Symbol+PLUS
VALIDATED

PS6SMC70M

PS6S8800B-M

PS6SMC3000M

Rugged, Industrial-class, Single-slot Cradle with Integrated Charging & Communications

- Charge Symbol mobile computers while remotely accessing or synchronizing data over any analog phone line
- Charge a spare battery
- Rugged yet ergonomic design provides ease of use and device storage
- Tailored design allows one-handed insertion and removal of the mobile computer
- Supports mobile computers deployed in harsh, dirty or extreme environments

Quick & Reliable 56kbps Analog Modem

- Connect from any standard analog phone line
- Improve productivity by retrieving critical information from anywhere
- Automatic dial-up makes a connection and syncs data to keep your information current
- Upload information from mobile data-gathering applications such as surveys, inventory management and asset tracking
- Access the Internet or remotely connect to the LAN

Built on Industry Standards

- Tested and approved for use in over 200 countries worldwide including the United States, Canada, and European Union countries
- Simple installation
- Used in corporate, branch or home office environments
- Minimize support, integration and hardware requirements
