

# Modem Charging Cradle

for Palm® Handhelds

PS6PMCM

## Product Information

### Quick & Reliable 56 kbps analog modem

- Connect through any standard analog phone line
- Improve productivity by retrieving emails and other critical information from anywhere
- Automatic dial-up makes a connection and syncs data to keep your information current
- Access the Internet and upload information from handheld applications gathering data

### Integrated Charging & Communication

- Charge a Palm Tungsten E2 or compatible\* handheld while remotely accessing or sending data over any analog phone line
- Ergonomically designed for easy use and device storage

### Broad compatibility

- Tested and approved for use in the United States, Canada and European Union countries

\* The Palm Tungsten T5 and Palm T|X may also be used with this cradle but each requires custom application development to enable the necessary Network Panel functionality. Sample code is available from Palm's developer's web site.
